Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-9 drawn to a method of treating a bipolar disorder with an omega-3 fatty acid, classified in class 514, subclass 560.
- II. Claims 10-17, 20-21 drawn to a composition and a kit comprising an omega-3 fatty acid, classified in class 514, subclass 560.
- III. Claims 18-19, drawn to a method of treating bipolar disorder with an omega-3- phosphatidylcholine, classified in class 514, subclass 78.
- IV. Claims 22-25, drawn to a kit comprising an omega-3- phosphatidylcholine and a second therapeutic component, classified in class 514, subclass 78.

The inventions are distinct, each from the other because of the following reasons:

Inventions II and IV and I are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the composition of Groups II and IV can be used to treat schizophrenia.

The methods of Groups I and III are patentably distinct since they require different compounds. They have acquired a separate status in the art as shown by their different classification and the search required for Group I is not required for Group III.

Because these inventions are distinct for the reasons given above and the search required for each Group is not required for any other Group, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Examiner Cook whose telephone number is (703) 308-4724. The examiner can normally be reached on Monday through Thursday.
